

John Hill School

Within District Trip Permission

In order to make learning relevant to students' real-world experiences, field trips are planned to take place at various times throughout the year. One of the great benefits of being a student in Boonton is that there is not always a need to travel far to gain an enriching learning experience or to put one's skills and knowledge to work outside of the school building. In fact, such opportunities can often be just a short walk or commute away. While we will always notify you when short walking trips are planned, this form provides an opportunity for you to offer permission for our staff to plan these more frequent learning excursions in town.

Please sign below to indicate that John Hill School has permission to take your child on local field trips within the Town of Boonton.
